NATURAL HEALTH FROM THE ALOE AND THE BEEHIVE

Happy Mother's Day

**TIME MARCHES ON** ... if you pardon the pun! With March we have Mothering Sunday – actually a Church festival, but also when servants were given time off to visit their mothers, hence the idea of gifts for our mothers. Forever has done us proud with a lovely selection of gifts, including the new shampoo and conditioner. • Also with March comes Spring, and spring-cleaning! Probably related to being able to clean a coal-fire heated house, but a wonderful opportunity to tell you about the new Forever Hand Sanitiser and to mention again the MPD. I started using this several years ago, and I wouldn't be without it now. I also use it to wash my car, and in the windscreen washers. Brilliant!

## Gifts For Mothers

**M**others' Day falls on Sunday 18th March this year, and to make it easy to choose something special to celebrate that day, Forever has created a selection of gift sets, complete with a free gift bag.

Simply order one of the gift sets shown here, and you will receive your special free gift bag, designed to spoil your Mum this Mothers' Day. Order soon to avoid disappointment as this offer is only available while stocks last.

Sonya Nourishing Serum & Deep Moisturising Lotion

Aroma Spa Collection

Bath Geleé & Aloe Scrub

Hydrate Shampoo & Conditioner

## CLEAN HANDS

**W**ashing your hands is a problem if there is no ready supply of water. Picnics are great fun, but getting our own and our children's hands clean isn't easy. The alcohol-based gels (like those used in hospitals) work well, but often dry your skin leaving it rough. This is even more of a problem for people with sensitive skin. Medical practitioners have even reported skin problems linked to frequent use of alcohol-based hand sanitisers.

Forever Hand Sanitiser is the newest addition to Forever's Personal Care range. When you're trying to keep yourself and your family healthy, some of your biggest enemies are the ones you can't see.

Being an active family, you come in contact with just about everything – including plenty of germs. Forever Hand Sanitiser with aloe & honey is designed to kill 99.99% of germs. The skin-soothing stabilised aloe and hydrating honey soften and moisturise as it cleans – not to mention its pleasing scent of lemon and lavender. And the 2oz bottle makes it the perfect size for us to have on hand anywhere, any time!

Let's face it – if you're an active family, there's not much you can do about picking up a few germs. But you can get rid of them quickly. Forever Hand Sanitiser – a big peace of mind in a tiny bottle.

## BURSTING WITH THE BEST

**W**e often overlook the obvious! Aloe, like many plants, contains substances called saponins. Apart from their health benefits, these 'soapy substances' are excellent for – believe it or not – cleaning! Even Ray Mears (of the BBC programme, 'Tracks', fame) showed us how to use saponins from plants when out in the wild country to wash and keep yourself clean. MPD is probably easier to use.

### MPD – Multi-Purpose Detergent!

Why waste space in your kitchen with a host of toxic, chemical-laden cleaning products, when you can have just one detergent which does the job of them all?

MPD is an incredibly versatile cleaning product – use it for your laundry, dishes, cleaning the floor, the kitchen or even the bathroom. You will be amazed at how much money you will save by having just one product to do the job of all those other cleaning products under your sink.

MPD is a highly concentrated, long-lasting liquid detergent that contains no phosphorus, and is environmentally-friendly. Unlike many other detergents on the market, the anionic and non-ionic surfactants in MPD are biodegradable, so are broken down by natural processes – reducing environmental pollution in the waterways.

This concentrated liquid detergent is great for lifting grime, cutting through grease, removing stubborn stains and destroying bacteria. Plus, being a liquid means that it does not scratch glass nor kitchen or bathroom surfaces.

MPD has a gentle formula, and is great for even the most sensitive skins. It contains Aloe Vera which also doubles up as a fantastic fabric conditioner, leaving your clothes unbelievably soft. MPD is also great for places where animals need safe cleaning, such as livery yards, kennels and pet bedding, so it is a great product for people with household pets, horses or farmyards.

*"MPD is possibly the most underestimated product in our range. It can replace almost every cleaning product in the house, garden, etc. In the current economic climate, every householder wants to cut expenses and MPD is a good way to do just that. Here is a golden opportunity to redirect your spending and save money, whilst looking after the environment and being kind to your skin."*
